Story 1

This chart is about world emi..

This chart is about top emitting countries

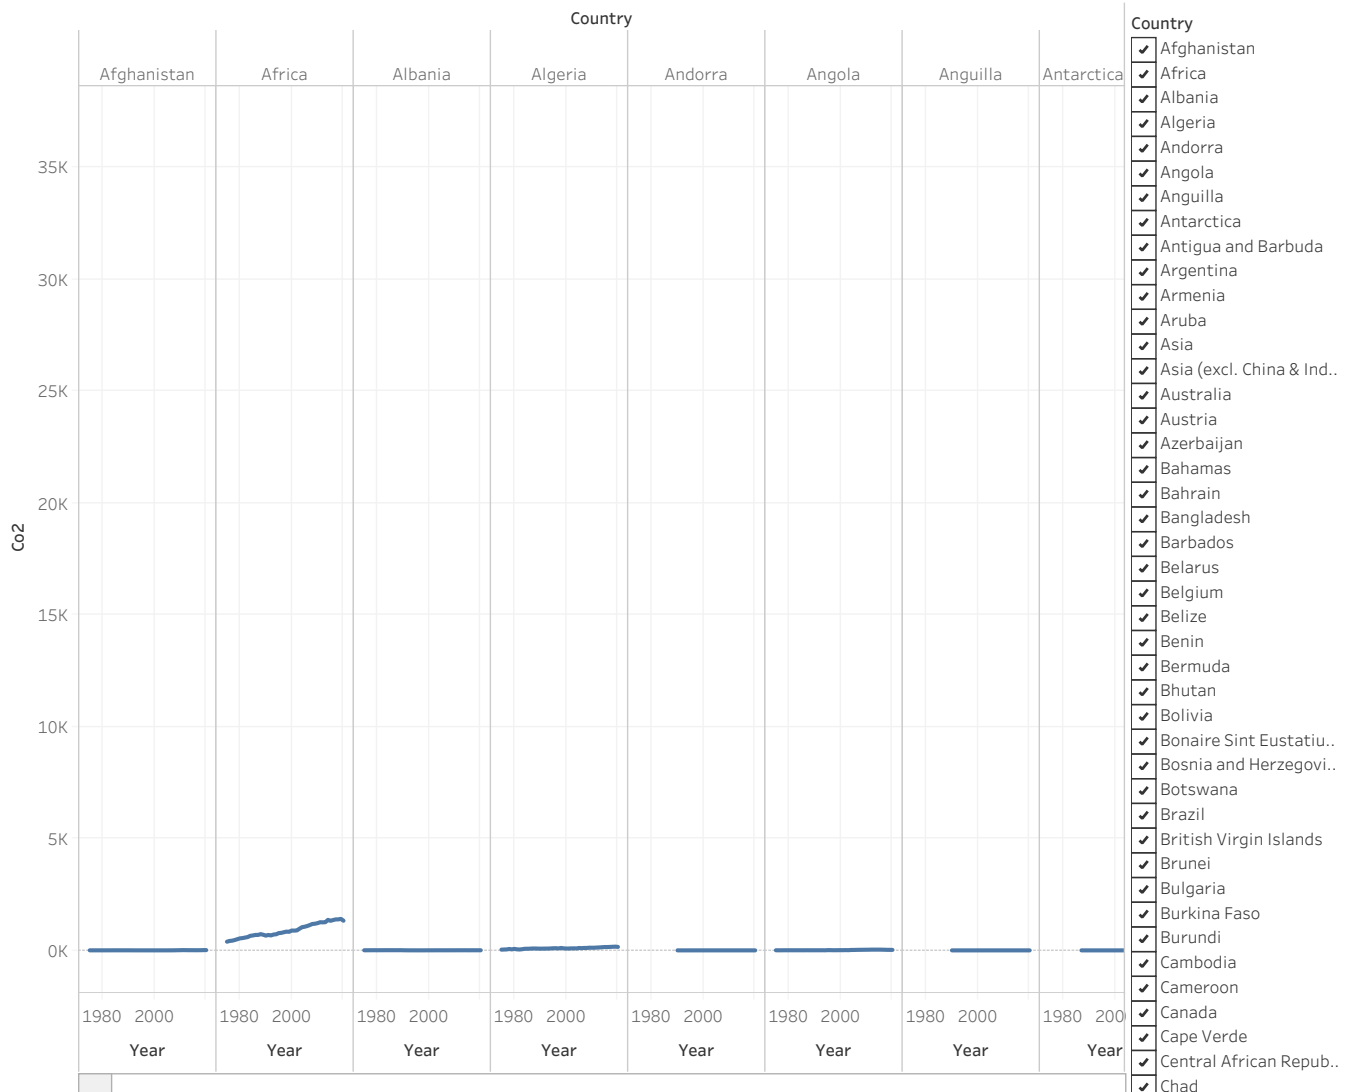

This chart is about co2 emission over time

This chart is about
India vs US

This chart is about
total emission by con..

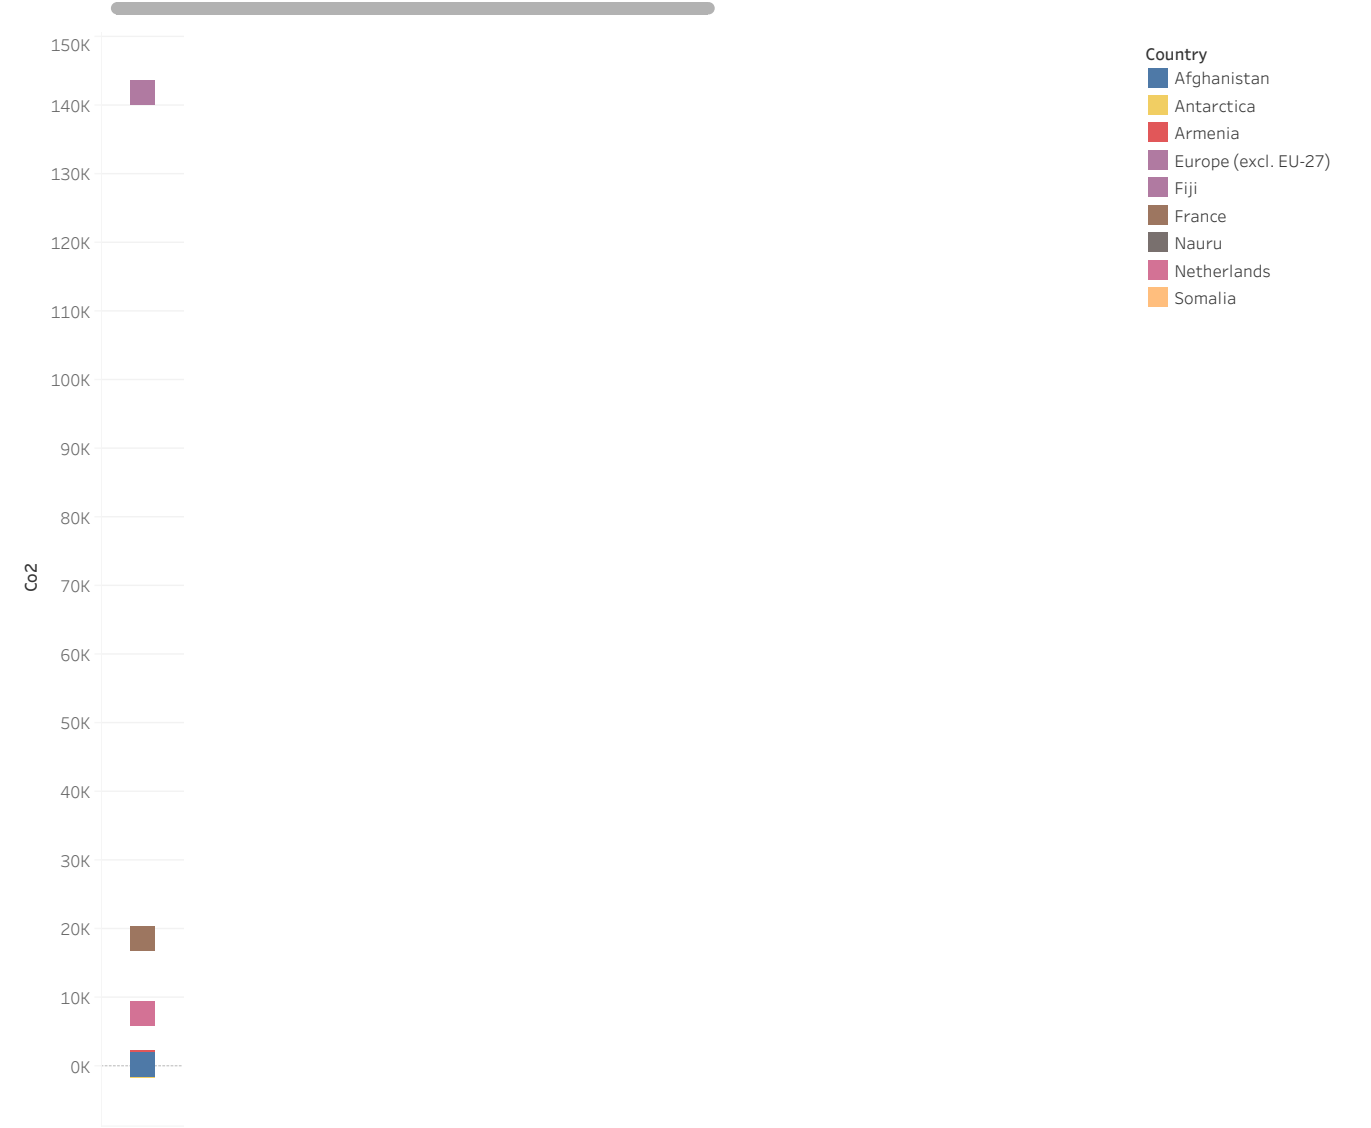

This chart is about co2 emission per capita

This chart is about
emission by other f..

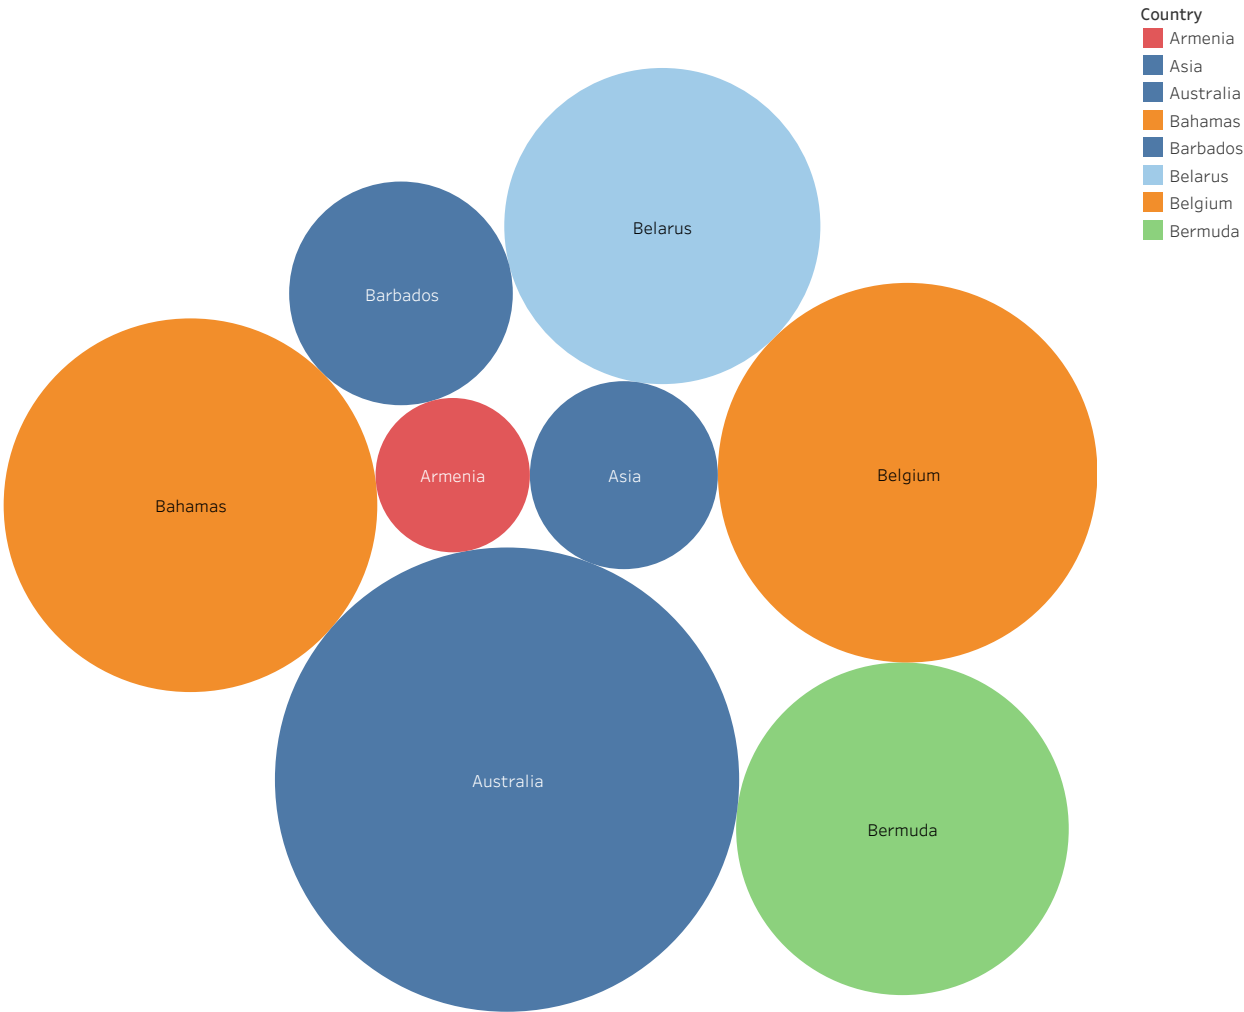

Story 1

- This chart is about top emitti..
- This chart is about co2 emission over time
- This chart is about India vs US
- This chart is about total emission by con..**
- This chart is about co2 emission per capita
- This chart is about emission by other fac..
- This chart is about rate by internal fac..

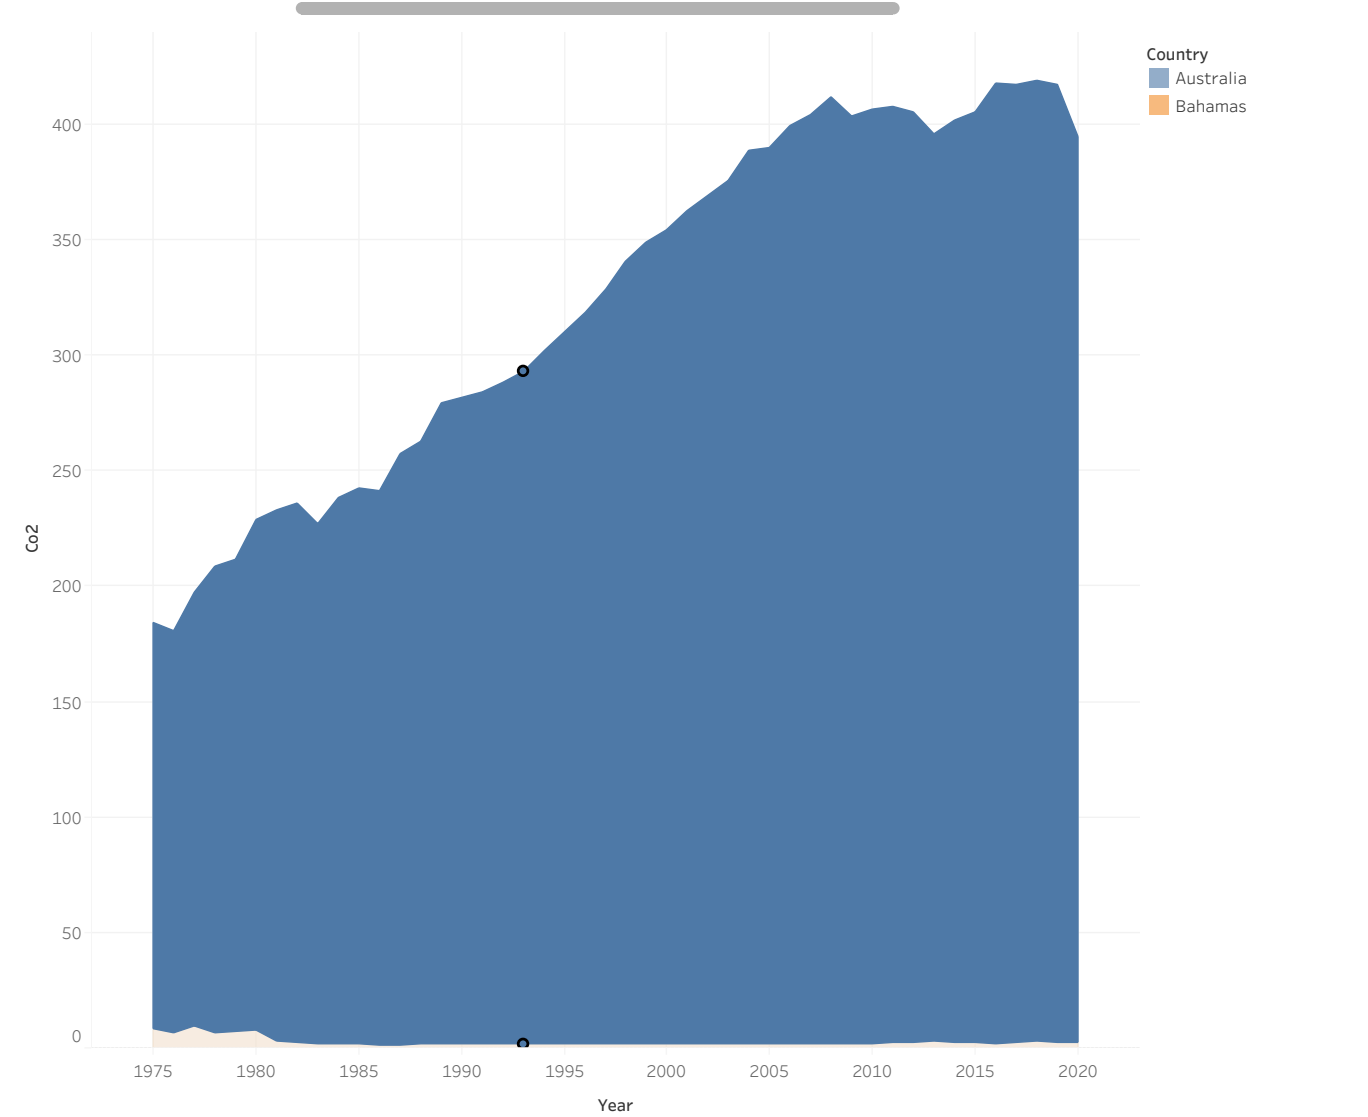

Story 1

This chart is about co2 emiss..	This chart is about India vs US	This chart is about total emission by con..	This chart is about co2 emission per capita	This chart is about emission by other fac..	This chart is about rate by internal factors	This chart is about past 10 years
---------------------------------	---------------------------------	---	---	---	--	-----------------------------------

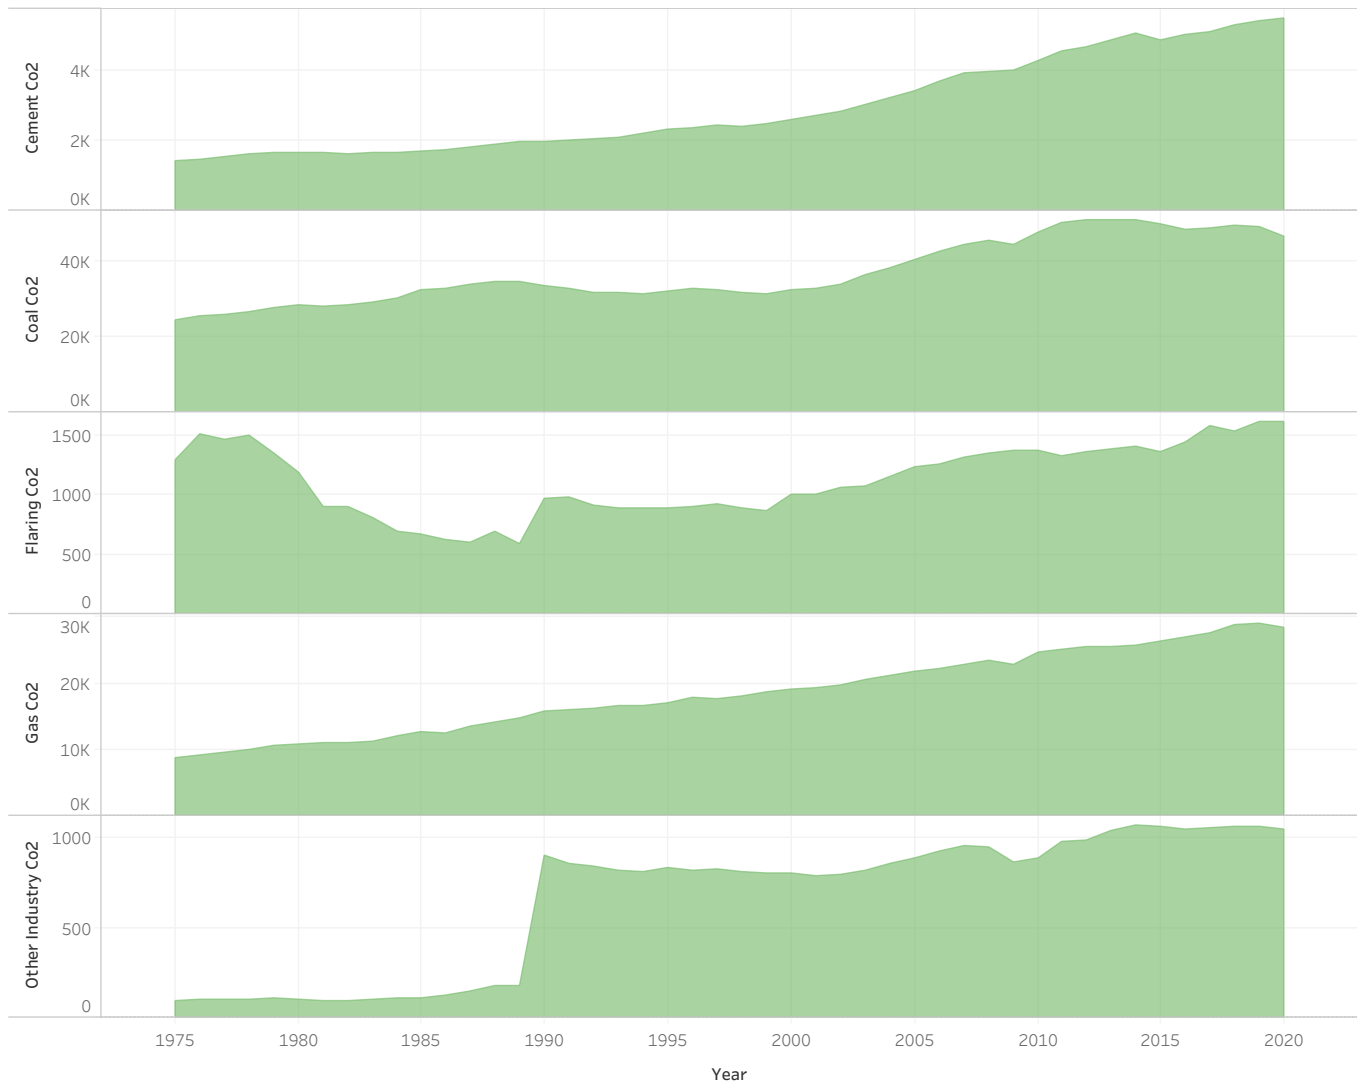

Story 1

- This chart is about India vs US
- This chart is about total emission by con..
- This chart is about co2 emission per capita
- This chart is about emission by other fac..**
- This chart is about rate by internal factors
- This chart is about past 10 years
- This chart is about overall contributio..

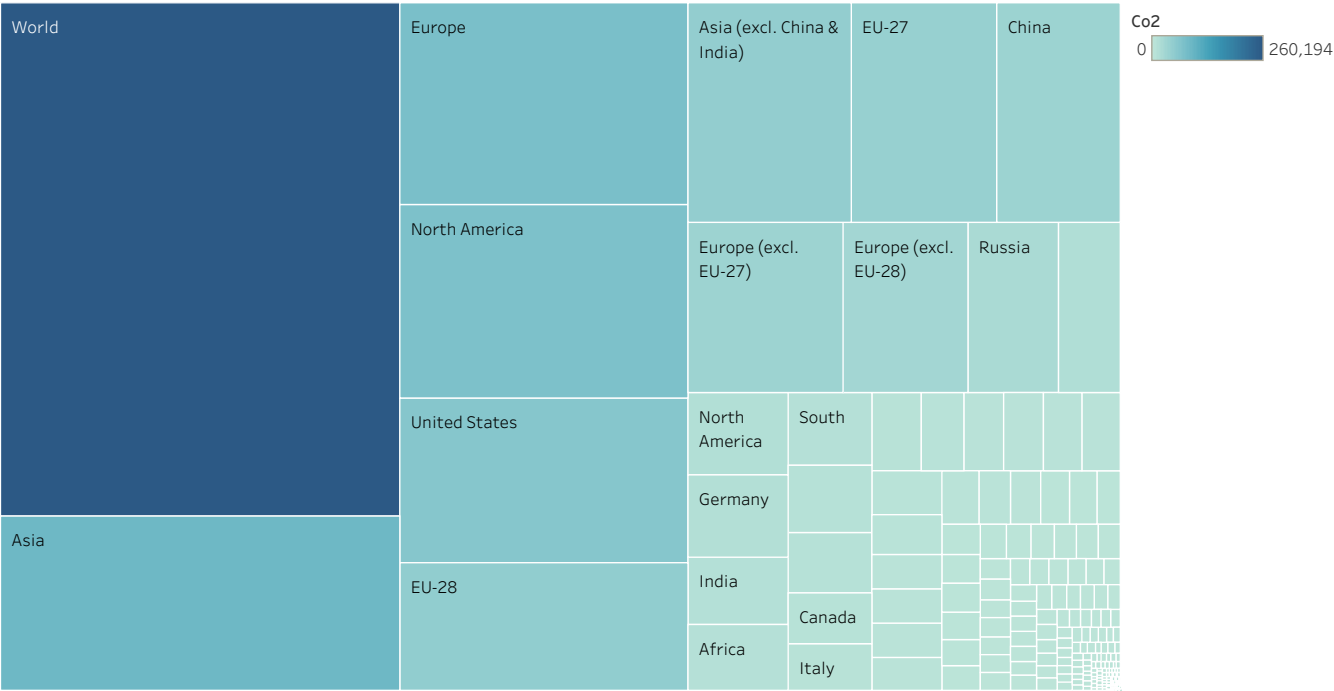

Story 1

This chart is about total emis..	This chart is about co2 emission per capita	This chart is about emission by other fac..	This chart is about rate by internal factors	This chart is about past 10 years	This chart is about overall contribution i..	This chart is about co2 emission from ..
